

DAMIAN H. KOTSIS, PH.D.

ASSOCIATE / DETROIT METRO OFFICE

Dr. Damian Kotsis concentrates his practice on preparing and prosecuting national and international patent applications in the life science and chemical arts, including biochemistry, molecular biology, pharmaceuticals, agricultural technology, organic chemistry, polymers and materials. Damian's clients include Fortune 500 companies, academic institutions, start-ups and individual inventors. He has helped these clients to obtain patent protection for inventions ranging from cancer therapies to fuel formulations. Damian also assists in the preparation of patentability and freedom-to-practice opinions, as well as with legal opinions relating to various litigation matters.

Damian is appreciated for his *truly broad range of technical expertise*. Damian learns as much as possible about each client's inventions and identifies how the inventions are distinguishable from what is known in the relevant art. In addition, his innate ability to recognize, understand and capture a high degree of technical detail allows him to flesh out additional inventive embodiments for drafting and prosecuting patent applications that result in strong patents.

PRACTICE AREAS

Patents

INDUSTRIES

Chemistry & Materials Science; Clean & Green Technology; Medical Devices; Pharmaceutical & Biotechnology; Semiconductor Processing & Devices

BACKGROUND

Prior to joining Harness Dickey, Damian spent many years in different research laboratories. He performed research concerning de novo pyrimidine biosynthesis in normal and neoplastic breast cells, ATP induced nitric oxide release from endothelial cells lining fused silica microbore tubing, and ryanodine binding to calcium channels in skeletal muscle sarcoplasmic reticula. Damian's laboratory successes led to publications in peer-reviewed journals, and he has presented his results at national and international conferences. Damian's

extensive research experiences have given him a unique ability to appreciate the challenges that confront inventors. As a result, he is able to understand his client's goals and therefore help build asset value by obtaining meaningful IP protection.

AWARDS & DISTINCTIONS

- University of Detroit Mercy, Dean's Honor Society
- University of Detroit Mercy, Dean's Scholarship
- University of Detroit Mercy, Justice Frank Murphy Honor Society
- Wayne State University, Graduate Students Academic and Research Award
- Wayne State University, Rumble Fellowship

MEMBERSHIPS

- American Bar Association
- American Intellectual Property Law Association
- Michigan Intellectual Property Law Association
- American Association for the Advancement of Science
- American Chemical Society
- Alpha Sigma Nu

EDUCATION

J.D., *cum laude*, University of Detroit Mercy, 2010

Ph.D., Biochemistry and Molecular Biology, Wayne State University, 2010

M.S., Chemistry, Saint Louis University, 2002

B.S., Biochemistry, Michigan State University, 1999

BAR & COURT ADMISSIONS

Michigan

U.S. Patent and Trademark Office
