

# YOUNG FEI

ASSOCIATE / DALLAS METRO OFFICE

Young works with clients to develop intellectual property portfolios that are optimized for the client's strategic needs. He has experience in preparing and prosecuting patent applications across a wide spectrum of technologies, including mechanical devices, software, image processing, and radio navigation and communications.

Young focuses on the *why* behind his client's intellectual property requirements. Knowing their ultimate goals allows him to develop tactical patent applications that can account for future licensing or joint development agreements. This client-centric approach further ensures that each client achieves the most *efficient* and *cost-effective* solution to meet their unique needs.

## PRACTICE AREAS

Patents; Trademarks & Service Marks; IP Litigation; IP Transactions; Copyrights

## INDUSTRIES

Automotive & Autonomous Vehicles; Electrical, Computer & Internet; Image Processing, Lasers & Optics; Mechanical & Electromechanical; Medical Devices; Software & Information Technology; Telecommunications & Wireless Technology

## BACKGROUND

Prior to entering private practice, Young served as an attorney with the Department of the Navy Office of the General Counsel, where he advised a Navy research laboratory on a variety of intellectual property and contracting issues.

Before attending law school, Young served as a Captain in the United States Marine Corps. Young supported Operation ENDURING FREEDOM as an Intelligence Officer, performing a variety of duties ranging from managing teams of signals intelligence, all-source intelligence, and ground electronic maintenance technicians to spearheading the negotiation, staffing, and drafting of an enduring memorandum of agreement between Coalition partners.
